SMYTHSON

OF BOND STREET

A DISTINCTLY RICH HERITAGE

Smythson is the proud holder of three Royal Warrants, a highly prized mark of recognition awarded for being purveyors of goods to the households of the British Royal Family.

In our world, luxury and versatility are never compromised. Smythson represents over 125 years of British luxury leather goods at their most refined with an enduring dedication to unrivalled craftsmanship. We endeavour to make the ordinary, extraordinary and the everyday timeless.

Our past clients ranged from the highly discerning European Royalty and the Indian Maharajas to the likes of Grace Kelly, Katharine Hepburn, Claudette Colbert and Vivien Leigh. These influential figures, from Sigmund Freud to Sir Winston Churchill, recognised the timeless purity of our creations.

Today, that legacy continues – a distinctly unique, extraordinary brand catering to extraordinary people. A world where our craft meets your story.

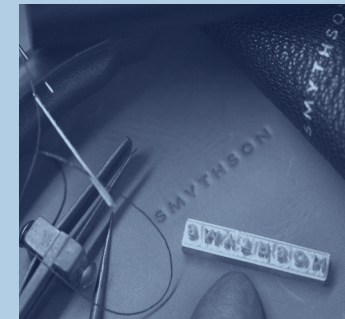

DESIGNED FOR A CONNOISSEUR

We understand the attention to detail that only the true connoisseur can appreciate. Our products endure a lifetime of usage with intrinsic longevity.

Each handcrafted piece from our iconic Panama diary to our extensive collection of handbags, stationery, travel goods and business accessories, embodies the Smythson lifestyle.

Made with only the highest quality, carefully sourced leathers in our own artisan workshops, every single design element has been carefully considered. All of our signature paper is traditionally milled and watermarked for Smythson, along with our books that are printed, bound and hand-finished in our own UK workshops.

Every elegantly designed Smythson product bears our unmistakable trademark of optimum quality, functionality and exquisite craftsmanship.

BESPOKE STATIONERY

Be it business cards or letterheads, you can expect the attention to detail and exacting standards for which Smythson is renowned. Our corporate team will guide you through every stage of the bespoke process from initial brief and design inspiration to final delivery.

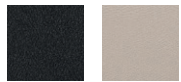

Designs drawn by our artisans are engraved into copperplates and die-stamped onto our specially milled watermarked paper using traditional printing presses built in the middle of the last century. Engraving is considered the highest form of printing, distinguished by its raised finish, intense depth of colour and bruising on the back of the paper. Each piece of Smythson stationery is beautifully complimented by our hand tissue-lined envelopes.

Minimum order quantities apply and lead times will be quoted on a case-by-case basis.
